This new departure will come as a surprise to the western traveling public. Ten of the cars will be seventy-foot chair cars, furnished with sixty-four twin reclining chairs, seating as many people. The interior finish is Mexican mahogany; deco-ration is olive green, with plain green lines and the chairs are upholstered in green. The cars are gas and electricity and are fitted with electric fans, for ventilation and cooling.

The other ten cars are seventying capacity for eighty. The seats are upholstered in maroon plush; otherwise the decrations are the same as in the chair cars. All the cars have very large double plate glass windows and are equipped with Pullman standard six-wheel

One new feature that will be intro duced in these cars is an improved draft gear with 125,000 pounds spring capcity. This is about six times the spring capacity of the ordinary passenger coach.
